RADIX
BRANDING SOLUTIONS

Any company can print on a cup or a shirt, but we're not just any company. At Radix Branding Solutions, our mission is to be a premier supplier of custom-printed promotional products. We combine outstanding products and printing capabilities with a dedicated team of sales professionals and graphic artists to create an unrivaled brand marketing service.

Whether they are offered at trade shows and events or served in restaurants and office settings, our extensive selection of custom printed promotional products features superior print and design quality that will impress your clients and resonate with their customers. Furthermore, with our eco-friendly collections, a wide range of apparel options, and a complete assortment of personal protective equipment, we've got something to offer every business.

While we put our custom products up against any in our industry, we undoubtedly set ourselves apart in the services we provide. First and foremost, we manufacture our products on-site with no outside sourcing required. We also emphasize oversight in our production process to ensure the utmost consistency for every customer order. And if we don't have what you're looking for, we'll get it for you.

Business isn't just about the products you sell; it's also about how far you're willing to go to solve problems and help your customers succeed. No matter what field your clients work in, from the restaurant industry to healthcare, we have the expertise, experience, and product quality to help you build their brand and take their success to new heights.

FULL COLOR DOUBLE WALL PAPER HOT CUPS

As one of our most popular offerings, the double wall hot cup builds off of the single wall design by adding an extra layer of insulation. This additional paperboard works to keep drinks warm, protect hands from uncomfortable heat, and save money otherwise spent on coffee sleeves or double cupping. For any businesses that start their work day with a needed caffeine infusion, our custom double wall cups get the job done.

ECO FRIENDLY SINGLE WALL PAPER HOT CUPS

If you serve clients who want to positively impact the environment, then our eco-friendly paper hot cups are the perfect fit for their business. The eco-hot cup is noteworthy because of its special PLA plastic lining that makes it both leak-resistant and 100% compostable. These cups are also the only leading cups on the market that come in five sizes, are ecologically friendly, and can be branded with up to three Pantone Coated spot colors.

Customizing your own disposable cups is one of the most cost-efficient forms of brand marketing. Seeing a company's logo on a cup can inform customers of the legitimacy and stature of a business.

Customers appreciate when a business looks beyond their bottom line. Our eco-hot cups can help your clients align their brand with environmentalism and better serve their customers simultaneously.

DIMPLED COFFEE SLEEVES

Dimpled coffee sleeves are perfect for cafes, but they can also be a unique accessory to the otherwise blank and uninspiring coffee cups found in the workplace. These thin sleeves feature a unique texture that is extra comfortable and provides protective insulation from even the hottest drinks. With vivid colors and detailed printing on both our kraft and white sleeves, your clients can boldly advertise their brand to every customer they serve.

Branding creates the symbol that unites all aspects of your business. A company logo should be clearly displayed on every cup you hand to a client or customer.

At Radix, we make sure our coffee sleeves emphasize comfort. However, not only is the dimpled sleeve a comfortable fit for coffee cups, it is also an interesting tactile alternative to standard coffee sleeves.

CLEAR PET PLASTIC COLD CUPS

Made from fully recyclable and sturdy PET plastics, these cold cups provide reliable resistance to cracking or bending. With a crystal clear design and spot color printing for special graphics or logos, brand imagery will be accentuated beautifully over any ice cold beverages. They are also compatible with a wide variety of drink lids so that your clients can serve refreshments of any kind. Whether your clients are serving iced coffee in a cafe or iced water in a board meeting, they'll be sure to impress with custom printed PET cups.

ECO FRIENDLY PLA PLASTIC COLD CUPS

Reducing a company's carbon footprint has never been easier than with our line of eco-friendly cold cups. These cups are designed with plastic lining made from renewable resources, allowing for safe disposal in a compost environment while boasting the same strength as our standard PET plastics. Now your customers can fill your shelves and stockrooms knowing that their business decisions also make a meaningful ecological impact.

PAPER COLD CUPS

If your clients prefer paper to plastic, then custom paper cold cups are just what they need. This line of paper cold cups blends the resilience of plastic cups with a taller, slimmer construction and leak-resistant interior lining. Perfect for offices, restaurants, and trade shows, these cups will serve any cold drinks while keeping your company logo expertly printed on the bright white background. Add corresponding lids and straws to every order and create a mobile advertisement that will catch everyone's attention!

With sizes ranging from 12 to 32 oz, you can offer the perfect fit for clients in a wide variety of industries. Offices and hospitals can get plenty of mileage out of our 12-16 oz cups, while the larger sizes are an excellent fit for the restaurant industry.

The difference between a blank cup and a branded cup is extremely important. A blank cup is basically anonymous and can even suggest a lack of effort; a customized cup demonstrates pride and effort that can resonate with customers.

FROST FLEX CUPS

Whether your clients want to make a notable impression at their next corporate event or just want to serve their best beverages in a better plastic cup, our frost flex cups can help them achieve better brand marketing. The frost flex exterior stands out from the moment the cup is in your hand, providing a secure grip and an interesting tactile quality. With full color printing available for any design, custom graphics and company logos will stand out vividly over the colors of any cold beverage.

FOOD BOWLS

These paper food containers are perfect for handling hot or cold foods and work wonderfully in any bar, restaurant, or cafe setting. With a tough interior lining, they're superb for soup, ice cream, trail mix, and more. Each container also features a tightly rolled rim for matching lids, helping your customers avoid spills or messy accidents while handling carry out orders or leftovers. Choose from any of four different sizing options and apply our exceptional color printing to the emblem that defines the brands you serve.

FOLDED PAPER TO-GO BOXES

Carryout services are a crucial aspect of success in the foodservice industry, and our new line of paper to-go boxes ensure your customers will get the most out of their takeout orders. These food containers feature several locking slots and polypropylene-coated paper that keeps food fresh and protects customers from frustrating sogginess and leaks. Most importantly, they are also safe to store in the refrigerator and safe to reheat in the microwave, making the enjoyment of leftovers easy and convenient.

BAGS

For many restaurants and bars, having great carryout services can be the difference between being forgettable and being memorable. If your clients need to improve their takeout and delivery services, then custom printed carryout bags are essential to achieving that goal. Our selection of paper and plastic delivery bags offer reliable quality that can handle any and every customer order from a single meal to family-sized portions. With an improvement in carryout services, brand recognition will certainly follow.

CUP CARRIERS

Whether people are ordering coffee in the morning or soda with a family meal at night, our cup carriers make it easy to transport several drinks without fear of spills. Each design is made to promote a secure grip and sturdy support that offers convenient carrying and prevents accidents that can ruin a takeout order. Combine both of our cup carrier options to give your clients a helping hand in serving their most popular beverages.

Product Specs

PRODUCT	MATERIAL	CASE QUANTITY
CUP CARRIER	MOLDED FIBER	300
HANDLE CUP CARRIER	CARDBOARD	200

Features & Benefits

- Molded fiber is sturdy and firmly grips four separate cups
- Collapsible cup carrier is convenient and reusable
- Able to carry multiple sizes of cups
- All carriers are recyclable

Available Styles

ACCESSORIES

Make sure to round out your clients' branding efforts with accessories perfectly tailored for our products. Each accessory is made from recyclable or compostable plastics, ensuring that your customers don't contribute unnecessary waste to the environment. For any business that serves coffee to its customers, we offer black straws and birch wood stir sticks to lend a helping hand. When ordering cup lids, you don't have to worry about sizing; they're fitted to multiple sizes and allow you to order in bulk with confidence.

Gloves

Whether employees are working in the kitchen, waiting tables, or delivering takeout orders, our disposable gloves can help them get the job done right. They're latex-free and are made with an embossed surface that improves grip.

Pastry Bags

No cafe or bakery is complete without pastries, but eating them can get a bit messy. Our pastry bags are great for keeping fingers clean and minimizing the mess while on the go.

Utensils

One benefit of ordering takeout is not having to do dishes. Our utensil packs offer everything a customer would need to enjoy their carryout meal, including salt, pepper, plasticware, and a napkin to help clean up.

Deli Sheets

Wrapping sandwiches and lining food containers or trays has never been easier. Our interfolded deli sheets tear in even sheets for efficient and effortless usage.

Stir Sticks

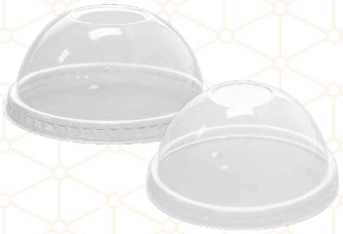
Americans love their coffee and these stir sticks are great for both cafes, waiting rooms, and break rooms. Make from recyclable birchwood.

Napkins

Our white and kraft napkins will soak up the messes made in any business or restaurant setting.

Sipper Lids for Clear Plastic Cold Cups

The sipper lid works well with any ice cold drinks, from ice water and tea to fruit punch.



Dome Lids for Clear Plastic Cold Cups

These plastic dome lids are perfect for those restaurants that specialize in desserts, milkshakes, and iced coffees.

Flat Lids for Clear Plastic Cold Cups

Our flat lids fit several sizes of our plastic cold cups and feature a straw slot for added convenience.

Reliance Sipper Dome Lids for Paper Hot Cups

Serving hot coffee with whipped cream and other tasty toppings has never been easier. Recyclable and fit multiple sizes.

Read more about Reliance on Page 60

Compostable Lids

Made from renewable resources, these lids will decompose safely in compost piles and reduce plastic waste.

Flat Lids for Paper Cold Cups

Pair these with any cold beverages to help customers take drinks on the go. Recyclable and compatible with multiple cup sizes.

Dome & Flat Lids for Food Bowls

Whether they are needed for leftovers or spillable foods like soup, our bowl lids will keep food items fresh and safe from accidents.

STRAWS

Our extensive selection of straws offers businesses in any industry a great accessory for serving refreshments and beverages. Our line of plastic straws features recyclable polypropylene, a more durable plastic that maintains its shape and resists splitting or bending. For companies that have moved on from plastic straws, our sturdy paper straws are an excellent and versatile alternative. Not only are they just as durable as a thick plastic straw, they are also biodegradable and reduce unnecessary waste in the environment. With each straw available in larger sizes and designed with extra width, customers can enjoy drinks of any size and consistency.

FLOOR GRAPHICS

When a business has a lot of foot traffic through their building, a lack of direction and space can cause frustration for everyone. Custom printed floor graphics can keep customer activity more organized and help businesses run smoothly on even the busiest days. From enforcing social distancing and preventing walkway blockages to providing directions to customers, floor graphics present a clever and imaginative way to handle day-to-day operations.

The use of recycled polyester is beneficial throughout the environment. Not only does it diminish the amount of plastic that is littered or tossed into landfills, it also drastically reduces the amount of water used in clothing production.

Recycled materials might not sound like the epitome of comfort, but the results will surprise you. Our eco-friendly shirts feature a lightweight and super soft feel that will fit seamlessly on both adults and kids.

There is a patriotic sentiment that comes with buying quality American products. Consumers know that keeping money in the United States' economy will benefit both their fellow countrymen and themselves.

Most importantly, American-made clothing adheres to strict labor practices that are not always found overseas. Clothing made in the United States can give your customers peace of mind regarding the safety and care related to manufacturing procedures and employee safety.

HATS

Hats and cold weather caps are arguably the most popular apparel items a business can sell. Much like with their favorite sports teams, people will eagerly wear a handsome cap that features a favorite brand logo or interesting design. At Radix, we incorporate several styles of headwear into our collection to give every client the type of hats their customers will love. With intricate embroidered designs applied to every style we offer, our hats are excellent marketing tools that will build quality brand recognition for any business.

Quality Products Guaranteed

RELIANCE CUP

ReLeaf CUP

An important aspect of building a winning brand is earning the trust of customers. What good is a product or service if it can't be delivered with consistency or reliability? To promote the dependability of the brands we serve, we use Reliance Cup and ReLeaf Cup for all of our disposable cup options.

What makes these brands stand out amongst other manufacturers? Most importantly, Reliance Cup and ReLeaf Cup offer disposable drinkware that is unmatched in its build quality. For plastic cups and drink lids, a more flexible polypropylene is used in place of polystyrene. This change in materials offers more flexible and durable products that resist cracking and maintain their original shape. The plastic cups are also crystal-clear, helping to emphasize any custom designs and provide an enticing view of every refreshment our clients offer.

For business owners concerned with the proliferation of plastics in the environment, these products also serve to reduce waste in the community. Reliance Cup plastics are 100% recyclable, while ReLeaf Cup products utilize biodegradable materials to help reduce our carbon footprint. With both recyclable and compostable products available for custom printing, you can make a meaningful brand statement and create a positive environmental impact all at once.

Reliance Cup and ReLeaf Cup give businesses the chance to create meaningful and positive branding experiences at competitive prices. Contact us today to find out how these quality products can impact your brand going forward.

Customer Testimonials

"Radix Branding has come through time and time again. Really wonderful company to work with. Great communication and flexibility has saved us with our last minute events. HIGHLY RECOMMEND."

Casey Marburger
Event Espresso Catering

Stephanie Augello
Bisnow

"Radix Branding Solutions has always been a great help and has produced quality products for all of the events my company, Bisnow, has hosted. We order our sponsored coffee cups for our events through Radix and we are never disappointed. They respond to our every need, even when it's a last minute request!"

"Superior products in their various categories and as personable and prompt as you'll find anywhere."
